About

Highly motivated data science undergraduate with strong skills in data analysis, visualization, and database management. Proficient in Python, SQL, and Excel, with hands-on experience in developing small-scale analytical projects. Skilled in leveraging AI tools and prompt engineering to enhance productivity and creativity. Recognized for adaptability, teamwork, and a consistent “get-it-done” approach. Actively seeking opportunities to apply analytical thinking and contribute to real-world business or data challenges.

EDUCATION

Bachelor of Computer Applications (BCA) – Data Science

Amrita Vishwa Vidyapeetham

CGPA: 7.4

SKILLS

TECHNICAL SKILLS

C, C++, Creative Prompting, CSS, Data Analytics, Database Design, Data Visualization, Excel, HTML, MySQL, Python, Web Development

PROFESSIONAL SKILLS

Clear Communication & Presentation, Creative and Analytical Problem Solving, Initiative, Reliability, and Time Management, Team Collaboration & Coordination

SOFT SKILLS

Adaptability and Continuous Learning, Emotional Intelligence & Leadership, Logical Thinking & Pattern Recognition, Result-oriented and Supportive Work Ethic

PROJECTS

Personal Portfolio Website

- Designed and built a responsive portfolio site to showcase academic and personal projects.
- Implemented using HTML/CSS and hosted on GitHub Pages for easy public access.
- Live Portfolio: <https://athiradhkp04.github.io> 
- GitHub Repository: <https://github.com/Athiradhkp04/athiradhkp04.github.io> 

Inquis: Expense (Personal Finance Tracker)

- Developed a multi-stage expense tracker evolving from a CLI script to a Tkinter desktop app and a Streamlit web application.
- Added smart categorization, persistent SQLite storage, and clear visual reports for better usability.
- Live Web App (Streamlit): <https://inquis-expensetracker.streamlit.app/> 
- GitHub Repository: https://github.com/Athiradhkp04/Inquis_Expense 

Student Performance Predictor

- Built a machine learning model to analyze academic and behavioral and predict student performance levels.
- Implemented data preprocessing, visualization, and explainable decision-tree modeling with AI-assisted refinement.
- GitHub Repository: <https://github.com/Athiradhkp04/student-performance-predictor>
